

**If you think it's a sin to force water rate hikes for Vista Ridge — 58%, with more coming, to build over the Edwards Aquifer, join our homegrown petition drive to vote for the SAWS Accountability Act.**

**Sign the petition for a public vote!**

**We need 20,000 signatures by February 8, 2021.**

The San Antonio City Council must need its head examined expecting ratepayers to shoulder 58% water rate hikes to pay for the \$3 BILLION Vista Ridge water pipeline to serve developer private profits. They want us to pay for the most expensive water in Texas to fuel development outside San Antonio – and without a proper audit!

**If passed by voters, the SAWS Accountability Act will:**

- ▶ Cut general manager outrageous pay -- \$600K per year -- nearly 3 times any other public water CEO in the US!
- ▶ Enforce existing term limits on SAWS Trustees.
- ▶ Return SAWS to its local community mission and stop their costly lobbying efforts to become water brokers of central Texas.
- ▶ Secure an audit of Vista Ridge AND audits of any \$1 billion or more projects BEFORE contracts are signed.

*Only registered voters in the city of San Antonio may sign this petition and only on paper, not online. Anyone can circulate it.*
